

FILINOV DMITRY

+7 (913) 064 21-57 | dm.filinov@gmail.com | [Telegram](#) | [Leetcode](#) | [GitHub](#)

Data Scientist with hands-on experience in machine learning and data analysis.
Worked with NLP, computer vision, and applied ML systems development.

WORKING EXPERIENCE

Yandex / International Search <i>Machine Learning Intern</i>	06.2026 – 08.2026
• Alert Investigator: developed an LLM agent for automatically investigating product metric regressions by analyzing problematic dialogues, identifying patterns, clustering cases, and testing root-cause hypotheses. • Response success evaluation: improved an LLM model for evaluating user success by adding and validating new behavioral signals. • Alerts: developed a system for detecting product metric regressions through statistical comparison of time periods. • Language classifier: prototyped a model, built a quality evaluation dataset, and prepared a data pool for distillation. • Data pipelines: wrote YQL/YT pipelines for processing product logs, calculating retention, and analyzing traffic. • Product analytics: built data marts and dashboards in DataLens for monitoring product metrics. • Experimentation: integrated the user success metric into A/B tests to evaluate product changes.	
State of Children LLC <i>Online ML internship project – video segmentation of forest fires from UAV footage.</i>	09.2023 – 01.2024
Siberian Generating Company, Novosibirsk Thermal Power Plant-2 <i>Non-commercial ML project – ensemble models for forecasting fuel consumption.</i>	03.2023 – 07.2023

SKILLS

Core	Python, SQL/YQL, YT, Git
ML & NLP	PyTorch, scikit-learn, TensorFlow, LLM evaluation, embeddings, clustering
Product & Statistics	A/B testing, statistical testing, retention, product analytics
Data & Visualization	NumPy, Pandas, S3, Redis, DataLens, Matplotlib, Plotly
MLOps & Backend	Docker, ClearML, Poetry, FastAPI, Flask
Computer Vision	OpenCV, Torchvision, YOLO
Languages	Russian (native), English (upper-intermediate)

SELECTED ACHIEVEMENTS

Digital Breakthrough: AI Season – 2nd place (2023), 3rd place (2024)	All-Russian
Governor’s Cup in Computer Vision – team winner, individual 2nd place	Regional
DANO – 2nd degree (2022), finalist (2023)	All-Russian
National Technological Olympiad in Big Data and ML 2024 – Top 8	All-Russian
Data Fusion Contest – Top 14 (2025), Top 15 (2026)	All-Russian

EDUCATION

National Research University Higher School of Economics (HSE) <i>BSc in Applied Data Analysis</i>	Moscow, Russia 09.2024 – present
University of London + academic direction from LSE <i>BSc in Data Science and Business Analytics (DSBA)</i>	London, UK, Online 09.2025 – present
Moscow Institute of Physics and Technology (MIPT) <i>Deep Learning School, Basic Course</i>	Online 09.2022 – 06.2023
